

International Journal of DECISION SCIENCE

VOLUME 10 • NUMBER 2 • DECEMBER 2019

Contents

Research on the Construction of Cold Chain Logistics Operation Mode of Fresh Agricultural Products	<i>Na Li</i> 49-57 <i>Xiaolin Guo</i>
Current Situation, Problems and Countermeasures for Export of Private Enterprises in Zhejiang Province	<i>Yi LIU</i> 59-66 <i>Shiming Ben</i> <i>Xu Xu</i>
A Study on the Potential Application of Parrondo's Paradox in Industrial Clusters, Business Strategy and Public Affairs	<i>Wei-Wei Xie</i> 67-76 <i>Yang Wang</i> <i>Qi-Wen Wang</i>
Research on Cost Control of Reverse Logistics of E-commerce Return	<i>Xu Xu</i> 77-84 <i>Yanbin Yang</i>
Satellite Image Recognition for Smart Ships Using A Convolutional Neural Networks Algorithm	<i>Hang Xiao</i> 85-91 <i>Xin Wang</i> <i>Peng Zhao</i>
A Research on the Operational Performance Improving of the Financial Sharing Center of Chinese Enterprise Groups	<i>Li Fei</i> 93-97
Capacity Expansion of Chemical Ships---A Case study of China Shipping Chemical Carrier., Ltd	<i>Sun Ling</i> 99-107 <i>An Xiaoyi</i> <i>Huang Fan</i> <i>Xiong Yuxuan</i>

International Journal of **DECISION SCIENCE**

Editor in Chief

JOHN WANG, PH.D.

Professor of Information and Decision Science, Montclair State University
Department of Management and Information Systems,
Montclari, NJ 07043, USA
E-mail: journalswang@gamil.com

Managing Editor

Reza Farzipoor Saen

Griffith University, Australia

Associate Editors

Renu Argarwal

University of Technology Sydney, Australia

CALL FOR PAPERS

OVERALL OBJECTIVES AND MISSION OF IJDS

The main objective of Journal of Decision Science (IJDS) is to provide an international forum for practitioners and researchers both for-profit and non-profit organizations, along with information technology professionals, software developers, and vendors to exchange, share, and present useful and innovative ideas and work. IJDS emphasizes the presentation and distribution of groundbreaking and original theories and concepts, which can shape future directions of research.

COVERAGE

Recommended topics include, but are not limited to, the following:

- Behavioral sciences
- Business forecasting
- Business intelligence
- Business mathematics
- Computer science
- Data mining
- Decision making in social setting
- Decision making under uncertainty
- Decision making with multimedia
- Decision sciences
- Decision support systems and software
- Decision theory
- Economics
- Electronic commerce
- Ethical decision making
- Fussy information processing
- Game theory
- Grid analysis
- Group decision making and software
- Informatics
- Information technology
- Intelligent agents technologies
- Knowledge discovery in databases
- Management information systems
- Mathematical optimization
- Mathematics of decision sciences
- Methods of decision making
- Morphological analysis
- Multiple criteria decision making
- Network analysis
- Neural networks
- Operations research
- Perspectives of decision making
- Political decision making
- Psychology
- Public decision making
- Risk management
- Robust decision making
- Scenario analysis
- Sensitivity analysis
- Sequential decision making
- Simulation methods
- Sociology
- Statistical decision
- Styles of decision making

- System analysis
- System theory
- Technological forecasting
- Web search & design

The Audience for IJDS

- Decision makers
- Accounting researchers and managers
- Financial researchers and managers
- Information systems researchers and managers
- Marketing researchers and managers
- Operational researchers and managers
- Government officials
- Economists
- Social workers
- Systems engineers
- Strategic planners
- Policy makers
- Problem solvers
- Educators and students
- Applied statisticians
- Consultants

SUBMISSION

Manuscripts should be submitted by e-mail as a file attachment in Microsoft Word format to the appropriate departmental associate editors or to the editor-in-chief. Papers should be double-spaced and usually fewer than 8,000 words, including all references, tables, graphs and appendix items. A cover page should give the title of the paper, the authors' names, addresses, institutional affiliations, telephone numbers, fax numbers, and email addresses. The first page of the manuscript should include the title of the paper and an abstract of 100-150 words. The abstract should not contain formulas. Do not include author information in the submitted paper, except on the cover page. Make papers as concise and brief as possible.

REVIEW PROCESS

The goal of a review process is to evaluate the accuracy and significance of the submitted manuscripts and to provide the authors with constructive and timely feedback. All submissions are to be reviewed for overall fit according to the Mission of the Journal. All papers are refereed through a double blind process by at least three members of the International Editorial Review Board of the Journal. The Journal requests that all referees complete their reviews within 6 weeks in order to permit prompt feedback to the authors. Revised papers should be reviewed within 4 weeks. Return of a manuscript to the author(s) for revision does not guarantee acceptance of the manuscript for publication. The final decision will be based upon the comments of the reviewers and Associates Editors, upon their final review of the revised manuscript.

DISCLAIMER
