

Indian Journal of Physical Anthropology and Human Genetics is a **refereed biannual International Journal** for issues concerning Indian Physical Anthropology and Human Genetics in particular and other allied sciences in general. The main focus of the journal is India. It also welcomes original research papers and brief reports providing comparative perspective or offering comments on significant theoretical issues from all over the world. The journal is expected to serve as a medium for scholarly studies devoted mainly to biological aspects of human populations as regards genetics, evolution, ecology, demography, growth, physiology biochemistry, pharmacology, forensic science, disease patterns and behavior of individuals comprising them.

INTENDED READERSHIP

This journal is specially intended for persons in physical anthropology, human genetics, human biology, forensic anthropology and peripheral disciplines. It contains material of interest to teachers, students and researchers of medicine as well as to the human physiologists and public health workers and all scientific persons dealing with human populations.
